VENTURE DEEP INTO THE BLUE WITH A WATCH THAT DOES MUCH MORE THAN TELLS THE TIME

styled by **Karina Timmel**

Constructed with more than 81 individual parts, the sleek **Clerc Hydroscaph H1 Chronometer** is any diver's dream accessory. This clever timepiece features a high-grade steel case, vulcanized rubber strap with folding clasps, and is water resistant to 500 meters. Features include 3D superluminova applique markers on the dial, glare-proof sapphire crystal, and an exhibition caseback. [clercwatches.com](http://clercwatches.com)

Lucky is the lady who dives with the distinctive **Omega Seamaster Ploprof 1200M**, which dazzles with a stylish stainless steel face, white strap and orange accents. Water resistant up to about 4,000 feet, the Seamaster features a screwed-in crown at 9 o'clock that offers freer wrist movement, and an automatic escape valve that discharges helium atoms during decompression. For the sophisticated man who enjoys a versatile timepiece, the **Carl F. Bucherer Patravi ScubaTec** travels from ocean to office. Its sporty style boasts a large 44.6 mm stainless-steel case with two sides of anti-reflective sapphire crystal. Even when diving in deep murky waters, the time is crystal clear due to a special coating on hands and markers that glows light blue in the dark. [carl-f-bucherer.com](http://carl-f-bucherer.com)

Like feeling weightless in water? So does the classy **Ulysse Nardin Marine Chronometer**, featuring a distinctive, ultra-lightweight alloy combining silicone and a synthetic diamond coating. This super-stylish and classic marine timepiece has a fluted bezel, solid lugs for stability on the wrist, and a screw-locked crown that is water resistant to 1,000 feet. A watch to dive for.
